Business License

Interim Procedures

March 16, 2010

To all LGC Business License customers,

LGC is continuing to work for you to align your data needs with what the State is providing. Currently, we are still not able to successfully begin BETA testing. However, we feel that the State will be able to get us the correct information needed with the Class 2 licenses. We do realize that this still leaves you with some questions for day to day operations. These questions may be answered in the Interim Procedures document on our website. The procedures are located in the 'Important information for customers' section.

These Interim Procedures were developed by a group of LGC representatives and customers from both the FlexGen and Zortec products. Please read them thoroughly to make the best decision for your office.

FlexGen Customers:

Download the items needed [here](#).

Zortec Customers:

A Zortec rep will be contacting you to implement the changes in your system.

Please feel free to reply directly to this email with any questions. Thank you for your continued patience and cooperation in this matter!

Sincerely,

Josh Love
