

## **Downloading FlexGen Releases**

**When prompted to 'Run' 'Save' or 'Cancel', Click on 'RUN'**

**If prompted a second time to 'Run' or 'Don't Run', click on 'RUN'**

**The install will begin unpacking.**

**Follow all on-screen instructions, taking all defaults.**

**After clicking 'Next' for the 'Pre-Install Instructions' the programs will begin to be copied to the correct location and FlexGen will be updated.**

**After FlexGen is updated, the documentation will be made available. The customer can click the appropriate 'button' to open the user documentation in PDF format. There is a link to Adobe 9 Installer, if that customer does not have Adobe installed. There is also a button to direct the customer to the LGC documentation site.**

**After printing documentation and closing that window, a PDF will open with the update code and information about updating LGC with that code.**

**Following the update code is the completion. Click 'Finish' to complete the update.**

**If you have problems with downloads, please contact LGC Software Deployment Department at (800) 737-1826**
